

Plate & Bar Steel Shears

- Capable of shearing sheet steel, steel bars and rods plus many non-metallic materials.
- Replaceable blades are hardened and tempered for maximum service life.
- Compound leverage allows the operator to easily perform work within shears' rated capacity.
- An adjustable hold down clamp aids in securing material.
- Includes 600mm / 1000mm long handle.

Punches

- Toothed lever power transmission.
- Adjustable material stop.
- Attached with one round punch and die.
- The special size and shape in specification example square, elliptical or others can be order as your required.
- Includes 1000mm / 1200mm / 1500mm long handle.

※Optional 9 round punches and dies:

Combined Plate Bar, Section Steel Shear & Punch

- A combinative type from two modles (E5SS-607 + EPR-1610) with ability of cutting and punching.
- Separate operation, to enable cutting and punching simultaneously on both working station.
- Shear station shears metal plates, flats, round bars, squares, angles and T-bars.
- Round deep-hole, square or similar stamps.
- Knife blade in hardened tool steel.
- Body of the device made of stable steel plates.
- Attached with one round punch and die.
- Includes 1500mm long handle.

※Optional 9 round punches and dies:
1/8", 3/16", 1/4", 5/16", 3/8", 7/16", 1/2", 9/16", 5/8"
(3, 5, 6, 8, 10, 11, 12, 15, 16mm)
